

MUFFLERS Made of Plastic

R1/8

- Superior noise suppression.
- Low resistance to air flow, so there are no adverse effects on device operations.
- Compact and lightweight for easy installation.
- Long service life. Elements do not corrode for superior moisture and oil resistance.
- Easy to clean with petroleum base products.

Specifications

Item		Model	KM-11
Port size			R1/8
Media			Air
Operating pressure range		MPa [psi]	0~0.9 [0~131]
Proof pressure		MPa [psi]	1.1 [160]
Operating temperature range		°C [°F]	5~60 [41~140]
Material	Body		Polyacetal (Duracon)
	Element		Sintered polyethylene (20 μm filtration)
Effective area		mm ² [Cv]	15 [276.750]
Noise suppressing effect		dB	18
Mass		g [oz]	4 [0.141]
Sales unit			One pack (10 pcs.)

Dimensions mm [in]
